The transfer permission between the Master Programs with thesis and without thesis is given by the Institution Administration Councils upon the suggestions of Departments. For the transfers from the Master Programs with thesis to without thesis, the applications should be done until the end of the fourth semester. The credits left should be completed after the transfer.

For the transfers from the Master Programs without thesis to with thesis, the applications should be done during the second semester, before the third semester starts.

In order to transfer from one to another, a part from the confirmation of the Institution Administration Council and the suggestions of Departments, there may also be an average grade limit. Transfers in the Master Programs with thesis and without thesis are provided only once.
